**PERFECT FIGURE FOR WOMAN
DEFINED BEFORE DRESSMAKERS.**

REPUBLIC SPECIAL.

Chicago, March 18.—Miss Morse of the Artists' Craft Institution, who is attending the National Dressmakers' Convention here, indulged in a few suggestions as to what in her opinion constitutes a perfect figure. Her stipulations for a well-proportioned figure are:

Height, 5 feet 5 inches; bust measure, under arm, 34 inches; bust measure, over arm, 42 inches; length of body, eight times the length of the head; width of shoulder, twice the width of the head; length from chin to top of breast bone, one-half length of head; from top of breast bone to waist line, one-half length of head; from breast bone to waist line, length of head; from waist line to beginning of lower limbs, length of head. To the middle of the thigh, length of head.

"I am not a painter or sculptor," said Miss Morse, naively, "and you will observe by the foregoing that I do not attempt to give detailed measurements of legs, arms and other portions of the female form as my conception of an ideal woman as a physical proposition.

"What I seek to teach is the matter of graceful proportion and how it can be attained or approximated through the medium of clothes.

"It does not concern me exactly what the forearm or the calf of the leg should measure. It is how big or how long are certain measurements as compared with others, those particular measurements which the dress can be made to emphasize or modify."

**ROOT WILL MEET
PRESIDENT IN ST. LOUIS.**

Secretary Will Be Detained in Washington by Pressure of Business.

REPUBLIC SPECIAL.

Washington, March 18.—Contrary to expectations, Secretary Root will not accompany the President on his Western trip. When the President began making his plans for an extended jaunt throughout the West he invited the Secretary of War to accompany him, and the latter accepted the invitation tentatively.

Until recently it has been anticipated that he would go with the President and, in fact, up to the present time, Mr. Root has publicly announced that he would remain here. But it is now known that he has decided not to be one of the presidential party.

Matters have developed recently which will prevent him from making the trip. Secretary Root will be obliged to go to London as early as possible in connection with the Alaskan boundary matter, and the President will not return to Washington until after that time.

While the President is spending two weeks in Yellowstone Park the nation will be practically without an executive head, so far as his direction of public affairs is concerned, and consequently it is thought advisable to have Secretary Root in Washington to look after any important matters which might need his attention.

He announced to-night, however, that he would meet the President in St. Louis April 9.

Steel Corporation President Greeted by His Lieutenants, Then Visits J. P. Morgan.

Counsel for Wabash Reviews Charges Against Officers and Members of Labor Unions.

NO INTENTION OF RESIGNING.

Says He Has Sold His Big Automobile Because It Was "Too Fierce" for Him, but He Has Bought Others.

New York, March 18.—Charles M. Schwab was at the office of the United States Steel Corporation to-day, where he was greeted by the chiefs of the various divisions. Later he called at the banking house of J. P. Morgan and Company, and conferred for a long time with several members of that firm.

He said in the course of an interview that he never felt so well in his life as he did to-day. He declared that he had no intention of resigning the presidency of the steel corporation, adding: "But, of course, I don't own the United States Steel Corporation and its stockholders choose their own president."

When asked regarding his big automobile Mr. Schwab replied: "The one in which I was making a tour of Europe? Oh, I sold that. It was too fierce for me. I am pretty strong, as you see, but that machine was a terror to every chauffeur I had. I have bought three machines and they will be here pretty soon."

What about that phantom yacht of yours that was making such remarkable speed on the Swiss Lake? Mr. Schwab was asked. "That was a boat I sold long ago. I hired for a few days its remarkable speed was only part of the phantasmagoria that have surrounded my journey and given me my trip a character."

Your cruise on Drexel's yacht Marguerite was real, was it not? "Indeed it was, the most delightful party of my life. We all enjoyed it very much, but a great many absurd things were said about it. We did not go up the Nile and did not intend to do so for special notice."

Referring to his observations in Europe, Mr. Schwab said: "I made this trip to study nature. I must say, however, that I was greatly surprised to find activity in some parts of Europe, Germany, for example, as well as France. The war has not only not been averted, but it has become more serious than ever."

**EX-PRESIDENT CLEVELAND
CELEBRATES HIS BIRTHDAY.**

Princeton Friends Call and Others Send Messages—Trip to St. Louis Not Definitely Arranged.

Princeton, N. J., March 18.—Former President Grover Cleveland was 59 years old to-day. He passed the day quietly with his family at his residence on Bayard Lane. He was the recipient of many congratulatory telegrams, and his intimate Princeton friends called and extended their best wishes.

In response to a request for his opinion on the passage of the Panama Canal bill to the Senate, Mr. Cleveland dictated the following statement:

"It is very gratifying that the bill has passed the Senate and I hope there will be no further delay at the beginning of the work, which, I believe, is going to mark an epoch in the commerce and trade of the world, and will be a glorious contribution by the American nation to the trade of the world."

Mr. Cleveland said only that he had not proposed to go to St. Louis to attend the dedication exercises of the Exposition. He was able to do so only in the event that the two Stafford Little lectures on public affairs which are given annually by him to the students of Princeton about the middle of April.

**CAPTURE OF JOHN O'REILLY
MADE BY PATROLMAN AGEE.**

Fugitive Caused the Suspension of Two Deputy Sheriffs When He Made His Escape.

John O'Reilly, who escaped from Deputy Sheriff Hodnett by jumping from an Olive street car, was captured by Patrolman Agee at 10 o'clock last night at Academy and Kensington avenues.

Patrolman Agee of the Tenth District saw the fugitive standing on the corner and started toward him. O'Reilly fled and was captured by Agee. The policeman fired one shot in the air and O'Reilly stopped.

At the police station the prisoner gave the name of John O'Neill and said he lived at No. 135 Hodonum avenue. He was recognized and finally admitted his identity.

O'Reilly was indicted on a charge of embezzlement and looked up about a month ago. He asked to be taken to a bondman in the west end of the city to make arrangements for his release, and while out with Deputy Sheriff Hodnett escaped.

H. A. Reese, Tailor, 617 Pine street, says, "It's in the make."

MISSOURI SUPREME COURT DECISIONS.

Jefferson City, Mo., March 18.—Division No. 1 of the Missouri Supreme Court met today and heard the following cases:

Following were the proceedings:

By Bruce, P. J.: Southworth vs. Southworth; Judgment modified and affirmed.

Hubbard vs. St. Louis and Meramec River Railway Company; affirmed.

Hubbard vs. St. Louis and Meramec River Railway Company; affirmed.

Hubbard vs. St. Louis and Meramec River Railway Company; affirmed.

Hubbard vs. St. Louis and Meramec River Railway Company; affirmed.

**ISSUES ARE OUTLINED
IN INJUNCTION SUIT**

Counsel for Wabash Reviews Charges Against Officers and Members of Labor Unions.

ENUNCIATES LEGAL POINTS.

Arguments May Be Ended To-Day, as Only One Attorney Will Speak for Committees and Officers.

Wells H. Blodgett, vice president and general counsel of the Wabash Railroad Company, opened the argument in the Wabash Injunction suit yesterday afternoon in the United States District Court.

Mr. Blodgett's argument was based upon six issues and five legal propositions bearing upon the charge of conspiring to injure the Wabash Railroad, made against the grievance committees and officers of labor organizations.

Owing to the fact that the reading of the depositions consumed all of the morning and most of the afternoon session, Mr. Blodgett was unable to complete his argument before court adjourned. He will resume this morning.

Frederick N. Johnson, counsel for the grand officers and members of the grievance committees of the Wabash employees, will follow Mr. Blodgett.

It is expected that Mr. Johnson will make the only speech for the dissolution of the injunction, and that he will be followed by C. N. Travous, attorney for the Wabash.

Judge Adams agreed to allow counsel all the time they desired for argument, but it is believed that none of the speeches will be more than three hours, in which case Judge Adams may have the case under advisement by to-morrow morning.

LEGAL QUESTIONS INVOLVED.

Mr. Blodgett then stated the issues in the case as follows:

It is charged that the defendants have maliciously conspired to injure the complainant by inducing its employees to quit its service in order to prevent the complainant from operating its railroad.

It is charged that the defendants have maliciously conspired to injure the complainant by inducing its employees to quit its service in order to prevent the complainant from operating its railroad.

THE MEN AND WOMEN

Who Enjoy the Choicest Products of the World's Commerce.

Knowledge of What Is Best More Important Than Wealth Without It.

It must be apparent to every one that qualities of the highest order are necessary to enable the best of the products of modern commerce to attain permanently to universal acceptance. However loudly heralded, they may not hope for world-wide preeminence unless they meet with the general approval, not of individuals only, but of the many who have the happy faculty of selecting, enjoying and learning the real worth of the choicest products. Their commendation, consequently, becomes important to others, since to meet the requirements of the well informed of all countries the method of manufacture must be of the most perfect order and the combination the most excellent of its kind. The above is true not of food products only, but is especially applicable to medicinal agents and after nearly a quarter of a century of growth and general use the excellent remedy, Syrup of Figs, is everywhere accepted, throughout the world, as the best of family laxatives. Its quality is due not only to the excellence of the combination of the laxative and carminative principles of plants known to act most beneficially on the system and presented in the form of a pleasant and refreshing liquid, but also to the method of manufacture of the California Fig Syrup Co., which ensures that uniformity and purity essential in a remedy intended for family use. Ask any physician who is well informed and he will answer at once that it is an excellent laxative. If at all eminent in his profession he made a special study of laxatives and their effects upon the system he will tell you that it is the best of family laxatives, because it is simple and wholesome and cleanses and sweetens the system effectually, when a laxative is needed, without any unpleasant after-effects. Every well-informed druggist of reputable standing knows that Syrup of Figs is an excellent laxative and is glad to sell it, at the regular price of fifty cents per bottle, because it gives general satisfaction, but one should remember that in order to get the beneficial effects of Syrup of Figs it is necessary to buy the genuine, which is sold in original packages only; the name of the remedy—Syrup of Figs and also the full name of the Company—California Fig Syrup Co.—printed on the front of every package.
